

GI System

Which of the following is not a specific element of duodenal ulcers?

D

Primarily affects males

Occasional malignancy

Can lead to weight gain

Affects people over 65

Which of the following is not a specific element of Hepatitis C?

A

Vaccine available

May be transmitted with sexual contact

Inflammation of the liver

Lifetime carrier

Which of the following Vitamins is not stored in the Liver?

C

Vitamin A

Vitamin B₆

Vitamin C

Vitamin D

Which of the following is not a contributor to a condition of ascites?

D

Elevated levels of aldosterone

Hypertension

Low levels of albumin

Elevated levels of angiotension I

Which of the following drugs is a histamine blocker and reduces levels of gastric acid?

C

Omeprazole (Prilosec)

Metoclopramide (Reglan)

Cimetidine (Tagamet)

Magnesium Hydroxide (Maalox)

Which of the following drugs is an antacid?

D

Omeprazole (Prilosec)

Metoclopramide (Reglan)

Cimetidine (Tagamet)

Magnesium Hydroxide (Maalox)

Which of the following drugs is a dopamine antagonist?

B

Omeprazole (Prilosec)

Metoclopramide (Reglan)

Cimetidine (Tagamet)

Magnesium Hydroxide (Maalox)

Another name for the Whipple procedure is a _____.

B

Cholangiopancreatography

Pancreatoduodenectomy

Cholangiogram

Cholecystogram

Which of the following microorganisms has been linked to Parotitis?

A

Staphylococcus aureus

Schistosoma

Wucheria bancrofti

Trypanosoma cruzi

What type of cell releases somatostatin?

D

β cells

α cells

plasma cells

Δ cells

What type of cell releases glucagon?

B

β cells

α cells

plasma cells

Δ cells

What type of cell releases insulin?

A

β cells

α cells

plasma cells

Δ cells

Another name for the (Billroth II) procedure is a _____.

A

- Gastrojejunostomy
- Gastroduodenostomy
- Cholangiogram
- Cholecystogram

Another name for the (Billroth I) procedure is a _____.

B

- Gastrojejunostomy
- Gastroduodenostomy
- Cholangiogram
- Cholecystogram

Which of the following arteries supplies blood primarily to the Midgut?

C

- IMA
- Celiac
- SMA
- Axillary

Which of the following is not considered a right of medication?

D

- Dose
- Time
- Route
- Limit

Another name for the Myenteric plexus is the _____.

C

- Submucosal plexus
- Branchial plexus
- Auerbach's plexus
- Lumbar plexus

Which of the following enzyme breaks down starches to maltose.

A

- Amylase
- Lipase
- Trypsinogen
- Pepsin

Which of the following is not considered an H₂ blocker?

D

Ranitidine (Zantac)

Famotidine (Pepcid)

Cimetidine (Tagament)

Sucralfate (Carafate)

Which of the following drugs aids in gastric emptying?

A

Cisapride (Propulsid)

Ranitidine (Zantac)

Famotidine (Pepcid)

Tranlycypromine sulfate (Parnate)
